

SOCIAL SUPPLEMENTS

Social Supplements is an expansion mod to Medical Supplements. It caters for items more related to social needs instead of medical.

PLANTS

Mint

Mentha (also known as mint) is a genus of plants in the family Lamiaceae (mint family). It is an aromatic herb used in food preparation with a distinct fresh appeal.

Cayenne Pepper

A species of the plant genus Capsicum (peppers). This variety produces fruit with a medium pungency (spicy heat).

Morel Mushroom

This delicate mushroom can be found in the wild and grown in hydroponics. They have a distinctive flavour highly prized by gourmets and act as a meat substitute.

Polyflower

A genetically modified flower that gives off numerous different scents. It was designed in this way to ensure that a pleasurable response can be had despite olfactory preferences.

PREPARED RESOURCES

Milk Powder

Powdered milk or dried milk is a manufactured dairy product made by evaporating milk to dryness. One purpose of drying milk is to preserve it; milk powder has a far longer shelf life than liquid milk and does not need to be refrigerated, due to its low moisture content.

Glucose

Glucose is a simple sugar with the molecular formula $C_6H_{12}O_6$. Glucose is the most abundant monosaccharide, a subcategory of carbohydrates. Glucose is mainly made by plants and most algae during photosynthesis from water and carbon dioxide, using energy from sunlight. It can also be synthesised by hydrolysing some vegetable starches.

Hot sauce

A spicy hot sauce prepared from cayenne peppers.

Food Drop GPS beacon chip

A GPS beacon for food supplies. A one-time use component, that sends a radio burst signal to request supplies to a specific location. It is used to make food supply flares and available from exotic traders who can offer this service.

Food supplies flare

Single use launcher that applies marker gas to call in food supplies as transport pod drops.

FOOD

Spicy Food

Spicy food are regular meals pepped up with hot sauce and where applicable (survival and travel meals) glycerol, to give it a greater appeal.

Spicy simple meal

Spicy fine meal

Spicy lavish meal

Spicy pemmican

Spicy survival meal

Spicy travel meal

Mushroom soup

A soothing culinary blend of mushrooms, milk and insect jelly. Ideal as food for the sick or infirm in recovery as it improves mood and blood filtration slightly and adds a little recreation value. Be advised that it can make a person feeling more soporific, so best to ensure that their consciousness is not at a risky level.

Animal treats

A sweetened kibble fortified with powdered milk that is non-perishable.

SOCIAL DRUGS AND SNACKS

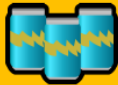

Mint tea

Refreshing beverage steeped from mint leaves and a dash of psychoid for good measure. Can be served hot or cold. Active for about half a day.

Mint Chocolate

A delicious preparation of mint and chocolate. It fulfils the need for recreation, but it is not very nutritious.

Blitz

A psychoid infused and highly sweetened drink. The drink comes in either a fruit (Zest) or mint (Ice) flavouring. Active for about half a day.

Vapes

Device to allow vaping of smokeleaf. It is slightly less harsh than a smokeleaf joint. Effects last about half a day. It comes in three flavours, regular, fruity and menthol.

Mouthwash

A menthol base anti-bacterial liquid. Can be used for oral health and to freshen breath. Effects last for about half a day.

Scenter

An appealing smelling scent suitable for all. Will increase the opinion others have of you.

Polyflower Juice

A sweet tonic made from polyflowers and glycerol. It helps fulfil the need for recreation.

Candy cane

A sweet preparation of mint and glucose. It fulfils the need for recreation, but it is not very nutritious.

Power bar

A delicious and sweet chocolate rice bar with fruits that can give a boost of energy. It helps with recreation as well as some nutrition.
